SafePath Advantage

• HIGHLY VISIBLE • LONG LASTING • FADE RESISTANT •

SafePath Advantage is an essential part in making your workplace clean, safe and more productive! The red and/or yellow coating will help keep your building in compliance with OSHA's regulations by protecting staff and visitors from areas of caution and hazard by identifying with clear, visual warnings.

RC-2050 CAUTION RED is excellent for showing the building's exits, fire extinguishers and electrical panels. It can also warn employees or visitors of areas that should be avoided.

RC-2050 SAFETY YELLOW can be used for outlining hazardous areas, skylights, mezzanines & walkways as well as cautionary areas in the workplace.
