SEBS Roof Coatings

SUPERIOR ELONGATION — Unmatched flexibility and performance in the toughest of climates with excellent UV resistance and stability. Ideal with large temperature swings and extreme weather conditions.

HIGH-TENSILE STRENGTH — Also known as “Liquid Rubber”, SEBS resists tearing, splitting, and mechanical damage – critical for long-term performance and protection.

EXCEPTIONAL ADHESION — Excellent Adhesion or High Bond Strength: The solvent-based formulation promotes strong, reliable bonding to a wide range of substrates without the need for a primer.

SUSTAINABLE — Years after install you have the ability to re-coat with the same or different chemistry of roof coating making this an optimal choice when restoring a roof.

SEBS LIQUID RUBBER

PRODUCT FEATURES

- High Tensile Strength & Elongation
- Lasting Strength & Flexibility
- Excellent Flow & Leveling
- Strong Adhesion
- Superior UV Resistance
- Weatherproof
- Recoatable/Sustainable
- Air-Cured

SUITABLE SUBSTRATES

- Metal
- EPDM
- Aged TPO/Hypalon
- BUR (asphalt)
- Modified Bitumen
- Concrete
- New Spray Polyurethane Foam

Product	Description		Color(s)	Unit(s)	Packaging	Product Code
RC 2000	Roof Coating	RC 2000 is a solvent-based thermoplastic rubber coating designed for effective corrosion control and high solar reflectance for increased energy savings. It offers excellent dirt pick-up resistance and strong adhesion to various substrates. It is tough and extremely flexible, allowing it to adapt to temperature related expansion and contraction of the roof substrate.	White	1-Gal	4/box	RC2000.01 White
				5-Gal	36/pallet	RC2000.05 White
				55-Gal	4/pallet	RC2000.55 White
			Gray	1-Gal	4/box	RC2000.01 Gray
				5-Gal	36/pallet	RC2000.05 Gray
				55-Gal	4/pallet	RC2000.55 Gray
			Tan	1-Gal	4/box	RC2000.01 Tan
				5-Gal	36/pallet	RC2000.05 Tan
				55-Gal	4/pallet	RC2000.55 Tan
RC 2250	Mastic	RC 2250 is a solvent-based thermoplastic rubber mastic that is extremely effective for sealing fasteners, laps and penetrations on various roof surfaces. It is tough and extremely flexible, allowing it to adapt to temperature related expansion and contraction of the roof substrate.	White	1-Gal	4/box	RC2250.01 White
				3-Gal	60/pallet	RC2250.01 White
				5-Gal	36/pallet	RC2250.01 White
RC 2250G	Mastic Gun Grade	RC 2250G is an extrudable version of RC 2250.	White	5-Gal	36/pallet	RC2250G.05 White
				55-Gal	4/pallet	RC2250G.55 White
RR-3000	Roof Repair	RR-3000 is a solvent-based mastic with reinforcing fibers formulated to repair a variety of traditional roofing materials, making it an ideal maintenance solution for most roofs in any weather condition. High elongation and tensile strength ensure reliable performance in conditions where asphalt-based cements would fail. This specialized, trowel-grade formula can be applied even on wet or underwater surfaces. VOC compliant in all 50 states.	White	1-Gal	4/box	RR3000.01 White
				3-Gal	60/pallet	RR3000.03 White
			Black	1-Gal	4/box	RR3000.01 Black
				3-Gal	60/pallet	RR3000.03 Black
SL-2100	Skylight Coating	SL-2100 is a clear, brushable, solvent-based thermoplastic rubber skylight coating intended for waterproofing and restoring fiberglass skylights.	Clear	5-Gal	36/pallet	SL2100.05 Clear
