## Silicone Roof Coatings

**WEATHER RESISTANCE** — Cured silicone rubber exhibits excellent long-term resistance to natural weathering including: extreme temperatures, ultraviolet radiation, rain and snow.

**HIGH-SOLIDS FORMULATION** — Enables fewer passes, enhancing productivity while delivering long-term protection and performance.

**MONOLITHIC/SEAMLESS** — Once cured this liquid applied silicone coating provides a durable, seamless, flexible, waterproof membrane that resists lateral movement, shear and will allow for normal expansion and contraction.

**MOISTURE CURE** — Optimal curing occurs at temperatures between 40°F and 100°F (5°C to 38°C) with humidity levels above 40%.

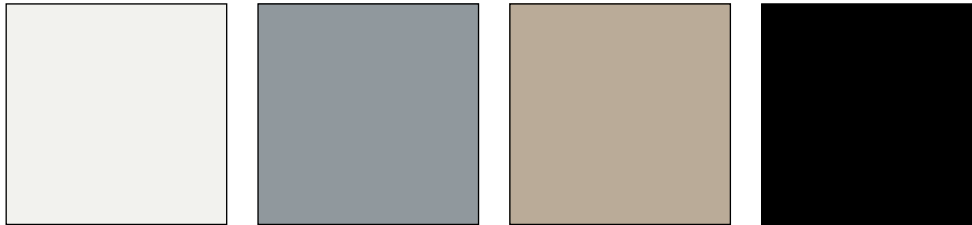

### PRODUCT FEATURES

- High-Solid or Low-Solid Options
- Lasting Strength & Flexibility
- Excellent Flow & Leveling
- Moisture Cure
- Superior UV Protection
- Ponding Water Resistance
- Single-Coat Application

### APPROVED SUBSTRATES

- Metal
- Aged EPDM
- Aged TPO
- Aged PVC
- Smooth BUR (asphalt)
- Smooth & Granulated Modified Bitumen
- Concrete
- New Spray Polyurethane Foam

Product	Description	Color(s)	Unit(s)	Packaging	Product Code		
<b>AldoSil 397</b>	High-Solids  AldoSil 397 is a high-solids, moisture-curing silicone roof coating formulated to provide long-lasting protection for a wide range of roofing substrates. It offers excellent resistance to severe weather conditions, UV radiation, and standing water. It serves as an effective solution for extending the service life of many roof systems. Can be applied in a single coat over 40 wet mils thick without blistering, while maintaining adhesion, making it an ideal choice for extending roof life with fewer application steps. <i>(Special order colors available)</i>	White	1-Gal	4/box	397.01 White		
			5-Gal	36/pallet	397.05 White		
			50-Gal	4/pallet	397.50 White

		<b>AldoSil 395</b>	Low-Solids  AldoSil 395 is a solvent-based, moisture-curing silicone roof coating engineered to provide long-lasting protection across a variety of roofing surfaces. It offers strong resistance to harsh weather, UV exposure, and water intrusion. Known for its superior adhesion and ability to fill voids and surface imperfections, it is a preferred choice for spray foam roofs. <i>(Special order colors available)</i>	White	5-Gal	36/pallet	395.05 White
